DAF | THE MULTI-ASSET FUND

Fund Objective

After the 2008 global economic downturn many companies, investors and even governments were not only left with huge deficits, but also left in a market place which was so drastically different to the previous years. The strategy adjustment required to facilitate such a change in market conditions was too much for many and the losses were significant. But this wasn't the first time this kind of adjustment was required, and it certainly won't be the last. Economic cycles of this nature have been regular since the turn of the 20th Century. The development of 24-hour news and age of connectivity has also meant that the word 'crisis' is used regularly. This reporting and this level of connectivity has the ability to effect such global uncertainty that it can mean an investor needs to change their strategy within days.

Fund Design

DAF – The Multi Asset Fund is designed to manage risk and diversify its structure over multiple asset classes, jurisdictions and market places to offer a truly diversified strategy that can follow the market and secure shareholders against market uncertainty.

The Carlton James Group have structured DAF – The Multi Asset Fund to utilise their existing strategies and experience. These strategies have seen the group's members overcome macro-economic issues beyond their control successfully over previous economic cycles.

Fund Highlights

- Cayman regulated mutual fund
- Expected net yield to investors of 8% p.a. (paid quarterly)
- Fund achieved 11.81% in first full year of trading
- Fund has achieved 5.68% Year to date in 2020
- The aim of the fund is to apply over half the portfolio in senior and secured yield generating debt investments
- Scarcity of global capital & lack of flexibility provides significant opportunities for DAF
- Fund utilises an 'ABC' (Alpha, Balanced, Core) Investment approach

Investment Philosophy

Carlton James Global Management Ltd (CJGM) is based in Royal Wootton Bassett, Wiltshire (UK) and is the distribution management company within the Carlton James Group. Carlton James Group's flagship fund DAF – The Multi Asset Fund, the strategy of which is to invest in a range of different asset classes by utilising an 'ABC' (Alpha, Balanced, and Core) investment approach. The 'core' aspect of the strategy underpins the expected net dividend payment of 8% p.a. to investors (paid quarterly).

Asset Allocation

Fund Performance Per Asset Class

Performance

Preparation & Planning

The fund saw a small drop of 0.0157% during the second month of the second quarter. The quarter still sits at a positive of 0.6528%. All sectors within the fund have successfully adjusted to market conditions. This is great news for the fund and shareholders.

The layering approach that the committee have taken for the fund mixes investment in cyclical, defensive and efficiency-based assets. This multiple approach continues to serve the fund well during the first part of 2020 where many others are faltering.

Newsletters

Please see latest Newsletter from Carlton James Group: <https://mailchi.mp/b29acf61eafe/carlton-james-group-march-newsletter-4408200>

More information on these strategies can be found on the CarltonJamesGroup.com under Press, News & Media (<https://carltonjamesgroup.com/media-news/>) or on the Carlton James Group LinkedIn page. Follow Carlton James for regular updates on direction of the group and funds.

The DAF – The Multi Asset Fund strategy of capital preservation through diversification will continue to help the fund grow even in times of uncertainty. This is, of course, what the fund is designed to do.
